

JACK HARNER

 Albuquerque, NM, USA jack@harnerdesigns.com HarnerDesigns.com Download

Hi, I'm **Jack Harner**! I'm a web designer based out of Albuquerque, New Mexico. I specialize in developing custom web solutions. I've been working with and learning web design since about 2011. In that time I've developed an eye for good design and a love for clean code.

I'm kind of a Jack-Of-All-Trades (pun intended). I have experience working with HTML/CSS/JS, PHP/Wordpress/MySQL, Search Engine Optimization, Digital Marketing, Social Media Management, Graphic Design, Photography, and I can Juggle.

I'd love to work where my creativity and critical thinking are challenged and critiqued on a daily basis. I'd love to put my talents to work growing a business and where I can grow as a designer.

Professional Highlights
