JACK HARNER

📍 Albuquerque, NM, USA   ✉ jack@jackharner.com   🖥 HarnerDesigns.com

Hi! I'm Jack Harner! I'm a a Front-End Web Developer and Graphic Designer based out of Albuquerque, New Mexico. I specialize in developing custom web solutions primarily with WordPress, but good 'ole fashioned HTML/CSS is great too. I strive for clean, maintainable code.

I'm looking for a fast-paced position where learning is encouraged, challenges are everchanging, criticism is constructive, and somewhere I can grow as a developer.

Professional Highlights

Marketing Director   Shoolu.com
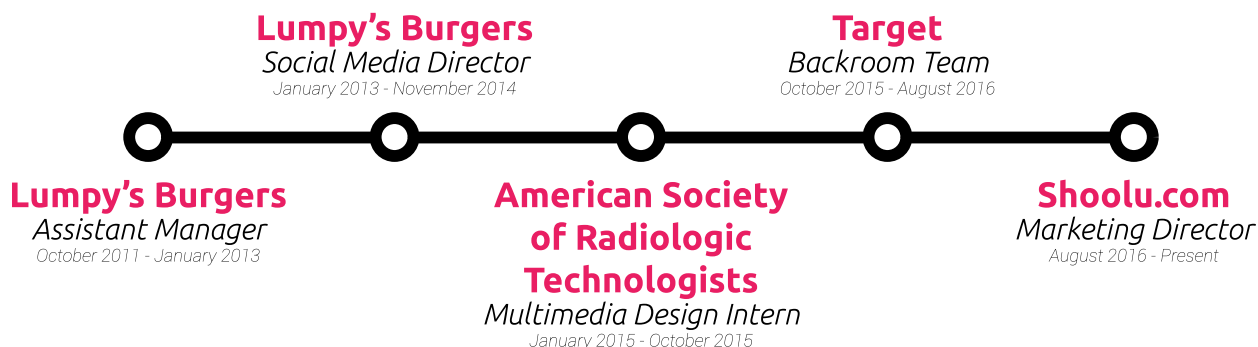

- Implementing Marketing Strategies to drive traffic to our website through Google Adwords, Search Engine Optimization, Social Media Marketing, and more
- Updating and improving the customer experience on our website with HTML, CSS, & Javascript
- Creating social and email campaigns to drive traffic and customer engagement

Multimedia Design Intern   ASRT

- Assist in the design and production of HTML Emails to be sent to members
- Test and implement new features on our website and internal tools
- Work with the Marketing department to update and maintain content on ASRT.org
